

MEDICARE LONG-TERM INTERNATIONAL HEALTH PLAN

International Health Insurance for
Individuals and Families Working or
Living Abroad

2017-2018

Insurance made easy.

WHO NEEDS INTERNATIONAL MEDICAL INSURANCE?

Individuals and families move abroad for a variety of reasons; for work, for family, or simply to make a fresh start in new surroundings.

Initially there can be significant challenges to overcome; cultural differences, a new language to learn, or an unfamiliar currency to contend with. No matter what the list of priorities, one thing that cannot be overlooked is your health and wellbeing – and that of your family too.

A key ingredient for a stress-free life as an expat is knowing that you and your family are protected and have someone to call on should you require medical treatment. There's certainly no comfort in discovering that you really need protection after you have fallen ill and are without access to possible lifesaving medical treatment; or are facing the burden of a large bill for treatment.

That's where APRIL International UK can help. Our health insurance can give you and your family the protection you need when living or working abroad. We consistently deliver the best international health cover for your needs, no matter how complex the situation.

MORATORIUM UNDERWRITING

The majority of our plans are underwritten on a two-year moratorium basis. This means that any pre-existing medical conditions that have presented symptoms or required you to seek medical advice and/or treatment in the two years prior to buying a plan will not be covered. Pre-existing conditions can only be eligible for cover once you have been symptom, advice and treatment free for two years after the start date of your plan.

FULL MEDICAL UNDERWRITING (FMU)

On the other hand, you can tell us about your full medical history in advance by completing a medical questionnaire and opt for a FMU policy. We will then use the medical information to review any pre-existing medical conditions that have been declared and decide whether we can accept your application or if exclusions will be applied to your plan prior to the start date.

CASE STUDIES AND TESTIMONIALS

The true test of any insurance plan is whether it will pay out when the worst happens. At APRIL International UK, we actively pursue a favourable settlement for our clients. Here are two recent examples of how we help our customers.

AGE: 62

LOCATION: Jordan and Germany

THE HEALTHCARE PROBLEM

Diagnosed with Hepatitis C following a routine check-up in Jordan.

THE TREATMENT

The client struggled to manage the condition with medication, while her health gradually deteriorated. Her doctors suggested to get treated in Germany with a new “wonder drug” called Interferon – which involved undergoing clinical trials.

She travelled to Germany to begin tests to see if she would be a suitable candidate for the new drug. These costs were passed to April International UK’s assistance provider, CEGA, for approval. At the time, because the drug was still in clinical trials and not approved for public use, the invoices were initially declined. However, we continued to support the client – and shortly afterwards the drug passed its clinical trials and was approved.

This opened the way for a claim and the total treatment costs were estimated at just over £98,000. During the summer of 2014, a course of Olysio and Sovaldi was prescribed, which added to the rapidly rising costs.

Around 12 weeks after the start of the treatment, a wide range of pathology and diagnostic tests were carried out to see how effective the drugs had been. The results were very encouraging, indicating that the course of medication had been totally successful in eradicating the Hepatitis C.

To date, the cost of treatment stands at just £90,000, but with the client now having appeared to make a full recovery, the treatment plan for the future is simply to carry out regular observations and precautionary diagnostic tests.

AGE: 5

LOCATION: UK

THE HEALTHCARE PROBLEM

Child suffering from significant hearing loss.

THE TREATMENT

The family of the child were referred to a local paediatrician who carried out an examination and a range of hearing tests at a cost of £250. The tests resulted in a recommendation for an adenotonsillectomy – a routine, but in this case important, operation to remove both the adenoids and tonsils and subsequently to insert grommets.

The surgeon’s fees totalled £530, whilst those of the anaesthetist amounted to £220. In addition, we paid for an overnight stay in the hospital, along with all nursing care costs, which added a further £5,800 to the bill and brought the total to just under £7,000. Fortunately, the child made a full recovery after a successful operation.

“ It was interesting to go through a claim experience with APRIL International UK, which gives me a better understanding of how the entire process works.

VERY EFFICIENT HANDLING AND FOLLOW UP by CEGA, and very fast settlement. ”

“ I would like to commend you for your **VERY PROMPT, RESPONSIVE AND EFFICIENT HANDLING** of my claim. It is personnel like you who give a very reputable and credible face to your organisation. Please accept my sincere profound thanks and appreciation for your best efforts. ”

“ I have heard of the bad press insurance companies get when the time comes to actually make a claim. I have been insured with you for about 6 years. Once, I had to claim because I came down with Dengue Fever – and this time it’s my teeth. And each time

IT HAS BEEN A PLEASURE AND A REASSURANCE.”

“ I wish to thank all of the team for all their assistance over the past years and please pass on my appreciation that when I have needed help, advice, or to use the policy for payments – **I HAVE ALWAYS HAD GREAT SERVICE.**”

“ I would like to emphasize how pleased I was with your service and **WILL DEFINITELY BE RECOMMENDING AND PRAISING YOUR COMPANY** if I am ever asked to suggest an International Health Insurance provider. ”

“ I would like to thank you and the assistance company for the great support. **EVERYTHING WENT SMOOTHLY** and when I came to the hospital for the operation they already had your guarantee in hand. ”
